APPLICATION FOR STANDARD PLAN APPROVAL

**RESIDENTIAL CONSTRUCTION < 1.0 Acre Disturbed**

For the purposes of this Standard Plan, residential construction means residential and auxiliary structures such as detached garages, sheds, pole barns, and other structures that create additional imperviousness.

**Applicability Criteria**

1. The total land disturbance will not exceed 1.0 Acre on any individual lot within the proposed project.
2. The proposed construction is for residential development that does not create common lands, common open space, or a public street.

**Standard Conditions for All Residential Construction**

1. Construction site stormwater management best management practices will be used. Standard Detail and Specification DE-ESC-3.7.1 ESC For Minor Development will be followed during construction (see attachment).
2. Approval of this Standard Plan does not relieve the applicant from complying with any and all federal, state, county or municipal laws and regulations.

**Stabilization Conditions**

1. Following initial soil disturbance or redistribution, temporary or permanent stabilization with seed and mulch shall be completed within 14 calendar days to the surface of all disturbed areas not actively under construction.
2. Specific stabilization recommendations may be found in the Delaware Erosion and Sediment Control Handbook, 3.4.3 Standard and Specifications for Vegetative Stabilization.
