

Town of Middletown Zoning Code

- All contractors must be licensed by the Town of Middletown.
- **Please Note:** All communities that have Homeowner Associations (HOA) or Architectural Committees, may require review and approval of any improvements made on the exterior of your home. Please follow your communities' rules and regulations.
- **This information pack is a courtesy review for zoning only.** It is a review for new installation or extensions to on-ground improvements like, paver or concrete patios and private walkways or driveways. This review is not required for replacement of existing private walkways or driveways where no enlargement or new installation is occurring. There are no fees or inspections associated with this courtesy review.
- Submit three (3) copies of a plot plan/mortgage survey to show the placement of the improvement; also show the setbacks (distance between your improvement and the property lines on all sides except the house side).
- On-ground improvements (paver and concrete patios, private walkways and driveways) shall comply with the Town of Middletown's zoning code and shall be located no closer than 2 feet to the adjacent property line.
- **Please Note:** On-ground improvements installed in utility easements will be permitted, but any utility work within the utility easement where an improvement is placed will require the improvement portion to be removed, if maintenance is needed in the easement, at the property owner's expense.
- Any work regarding construction of steps, stairs, handrails and landings shall comply with the current adopted International Residential Code.
- Any fire pits or fireplaces shall be located at least ten (10) feet away from the dwelling, comply with any State codes and any applicable manufacturers installation instructions.
- Please **post the applicable courtesy reviewed information** and have **approved plans** on site at all times prior to the beginning of your project.
- All electrical work is State regulated. Please follow all rules and regulations if electrical work is to be installed. Visit the State of Delaware's website at DPR.DELAWARE.GOV and click or search, Board of Electrical Examiners for electrical work permit information.
- Please call Miss Utility, prior to any digging at 1-302-282-8555 or 811.
- **Please Note:** no stone, sand, crush and run or paver material is permitted to be placed on the street or public sidewalk.
